PROFESSIONAL EXPERIENCE

Genesis Dashboard
Worked as a front-end developer

2022/12 – 2023/08

- Participated in the initial wave of development, learning, and implementing the React.JS library.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
- Tested, debugged, and shipped 10s of 1000s of lines of code to various development teams. This lead to 100% bug-free deployment.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for clients.
- Maintained graphic standards and branding throughout the product's interfaces.

PROJECTS

Genesis Dashboard 🔗
Dashboard

2022/12 – 2023/08

With this powerful tool, users can create tables and easily add data. The tables are securely saved in the backend, ensuring data integrity and flexibility.

101Cars 🔗
Car showcase project

2023/07

A well-constructed car showcase website serves as a virtual showroom, allowing car enthusiasts and potential buyers to explore and learn about different car models without needing to physically visit a dealership. It combines visually appealing design with user-friendly features to create an enjoyable browsing experience.
